

Manna GTS™ Sales Brochure

The software of choice for business professionals

Our premiere donation and gift tracking system is called Manna GTS™. These are some of the great features offered in our software:

- Extremely easy to use.
- Create a customer account and keep track of donations.
- Track donations by fundraiser event.
- Custom letter templates for donation receipts and year end tax letters.
- Print or email donation receipts.
- Print or email year end tax letters.
- Email saves you money in: postage, printer, envelope and paper costs!
- Savings from the email system will pay for the program!
- Extensive journaling system keeps track of user activity.
- Customer address report.
- Gift entry audit report.
- Many other reports.

Manage donations accurately and easily.

Be in control of your data

We can provide you with a copy of your database when we host your system for you through the cloud (Internet). We can also install our software and database on your local computer where you have total control. Other cloud companies may not provide you with a copy of your database because they want you to keep paying for their monthly service. They may have an option for you to retrieve a copy of your data, but it usually includes a ridiculous fee. We provide this service free of charge.

Customization

Most vendors will not customize their product to fit your needs. Ask another vendor if they will customize their product for you and their response will be: “Sorry, you get what comes out of the box”. We look at customization differently. We want your suggestions and we generally won’t charge a customization fee if most of our customers will benefit from the change. We think your ideas help us improve our product and make it better for everyone!

Easy installation

Don’t worry about installing our software. We pride ourselves in customer service. We will install it for you!

Easy to use

Many systems offered by other vendors are too complicated to use and have too many forms. We’ve designed our system for the novice computer user. Everything flows together and is easy to understand. Visual help tips are displayed by simply moving your mouse over an area.

Save money

Our software will save you money. Our email system allows you to email donation receipts and year end tax letters directly to your clients. Add up how much you spend on: postage, printer, envelope and paper costs on an annual basis. Our software eliminates these costs. It won’t take you very long to cover the cost of our software.
